

UTM

2019-2020 Goals:

- ✓ To establish a network with members of environmental groups and individuals at UTM that will grow beyond the 2019-2020 year and continue to deepen the relationship between UTERN and UTM
- ✓ To promote UTERN's work at UTM and extend our resources
- ✓ To support UTM within UTERN by representing the campus

UTM

- This year's work was mostly focused on laying the foundations for UTERN's presence at UTM and creating a group of environmentally-focused groups/individuals that would strengthen our organization's network beyond St. George. Completed work includes:
 - *Creating a partnership with the UTMSU (UTM Student Union) Sustainability Representative that would provide vital resources on the campus and a great network (especially connecting us to the UTM Sustainability Office)*
 - *Creating relationships with established UTM environmental groups such as Zero Waste UTM and SAGE (hopefully more to come!)*
 - *Running our first-ever UTM EWG!*
 - We talked about UTERN's work and resources, Zero Waste UTM's events, SAGE's events, UTMSU's events and initiatives, our goals for next year as a group, and shared concerns and resources to one another in a very nice and productive meeting!
